

Abbot Alphege Academy Improvement Plan 2020 – 21 Summary for parents, carers and our community

We will provide an outstanding education for all children in our academy by:

developing our teaching skills through coaching; creating a unique and challenging curriculum that focuses on knowledge and skills; improving our ongoing assessment processes, making sure that all gaps in learning are identified and closed.

We will maintain an extremely high standard of behaviour and conduct in our academy, ensuring that all children have disruption free learning by:

creating an approach to behaviour management that is absolutely clear, is simple, and is implemented consistently; using our Christian Values effectively to help children understand what it means to be a good person and do the right thing.

We will provide excellent opportunities for our children to develop confidence and resilience, and support their good mental and physical health by:

implementing a new and improved PSHE (Personal, Social and Health Education) curriculum; reviewing the use of our Sports Premium to make sure it is used as effectively as it can be; providing additional support to learners who might find school a difficult place (especially as we recover from the Covid crisis)

We will develop the leadership and governance of our academy by:

co-creating our academy's unique and independent vision and values; creating our own brand new Local Governing Body; developing the leadership of curriculum subjects in our academy; developing the senior leadership of our academy as we grow.

We will develop excellent community, partnership, church and diocesan links by:

Promoting our academy in the local and wider community; using a variety of strategies to communicate exceptionally well with our families (including a new look website); improving our links with our local church and the diocese; developing our PTA as an effective and excellent organisation.
